PROJECTS

Music House | *Git, VS Code*

July 2024

- The EdTech. website "Music House" offers comprehensive music courses for various skill levels, including guitar, vocals, and music production. It features interactive learning, live feedback, and a cutting-edge curriculum.
- Programming Languages Used: JavaScript/TypeScript
- Frameworks and Technologies Used: Tailwind CSS React (Next.js) Vercel for deployment
- Learned how to create a website using Next.js , using Git and vercel for deployment
- Visit the website here: [Music House](#)

POSITION OF RESPONSIBILITY

IEEE Photonics Club | *Operations Lead*

July 2024 – Present

As an operations lead in the IEEE Photonics Club at my college, I am involved in initiatives aimed at spreading knowledge and fostering interest in modern technologies related to photonics. Our club organizes workshops, seminars, and hands-on projects that explore cutting-edge developments in these fields, promoting collaboration and innovation among students and professionals.

ACHIEVEMENTS

- Microsoft Certified in Azure AI fundamentals
- Solved 250+ DSA problems across platforms
- [Leetcode Profile](#)
- [CodingNinjas Profile](#)
